Generative AI: Introduction  
and Applications

Generative AI: Prompt  
Engineering Basics

Generative AI: Advance  
Your Human Resources (HR)  
Career

Mar 10, 2025

## Billy Ray Butler

has successfully completed the online, non-credit Specialization

# Generative AI for Human Resources (HR) Professionals

This specialization provided practical skills to leverage generative AI to enhance a career in HR. Learners gain an understanding of the core concepts, capabilities, tools, and applications of generative AI. They explored prompt engineering techniques for writing effective prompts to produce desired outcomes. Specifically, learners discovered using generative AI in the HR domain. They gained practical skills in leveraging generative AI for different functions in HR. The learners explored common generative AI tools and platforms, such as ChatGPT, Google Gemini, and IBM Watsonx Orchestrate, which can be leveraged for HR use cases. By completing the hands-on labs and projects, the learners explored the use cases of generative AI for use cases in the HR domain.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
